Hair Maintenance

1. Washing instructions:	First of all, you need to wash your hair on a regular basis Detangle hair from ends to roots before washing Wash with gentle warm water, using the shampoo. Do not rub or twist the hair. After shampooing, you can use the conditioner to bring shine. Once shampooed and conditioned, gently squeeze out excess water Dry hair with towel. Once again avoid rubbing and twisting the hair using a towel.
2. Brushing:	Brush your hair weaving using a wide toothed comb daily. Don't use hard plastic bristle brush, avoiding these to pull or stretch your hair curtain
3. Re-Styling:	Re-Styling products is acceptable, specially designed for hair weavings. But do not apply any oils or waxes to the hair weaving.
4. Coloring:	We do not recommend dying hair weavings. Because if not treated properly, the hair will be damaged.

FAQ:

Q. Can hair extensions be cut?

A. Absolutely! Hair extensions can be cut and styled in almost any way that you want. But, cutting hair extensions is no easier than cutting normal hair and it is advised that you have a professional do it.

Q. Can anyone notice that I am wearing hair extensions?

A. If the application is done by a qualified and trained Stylist, it is nearly impossible to tell. The only way some can guess you have them is because your hair is so amazingly beautiful they just assume you must have some extensions otherwise how could you have so much beautiful hair.

Q. What are better, straight or wavy hair extensions?

A. It depends on what you do with your hair. If it is typically straight then keep it that way. If you like to change it we recommend wavy as it can be worn straight or curled.

Q. If my hair is damaged; can I have hair extensions put in?

A. Yes. Our priority is to protect your hair from any damage so that you can improve your look with confidence.

Q. How long can I leave my hair extensions in?

A. The answer to this question depends on how fast your natural hair grows and how well you take care of your extensions. Typically, up to six months!

Q. How do I wash my hair extensions?

A. Wash the hair in one direction. From top to bottom, avoid washing hair upside down in the sink. Use shampoos and conditioners that are for dry hair and add the most moisture. Wash hair right after swimming. When brushing your hair, start from the bottom and work your way up while holding the top part to keep it from shedding or stretching.
